

Register Your Property

The Okanagan Film Commission keeps an extensive digital library of potential locations throughout the region. It's easy – and free – to register your home, office or property.

The first step is to create a digital “photofile” of your property – a virtual tour in pictures. It is best to use a digital camera, although you can use a standard camera as long as you save the final pictures digitally on a CD. If you don't know how to do this yourself, your local photo lab or camera shop can do it for you.

Photofile Guidelines

- Photograph your property using the widest shots possible
- Start with the outside of your house:
 - Shoot your neighborhood street looking both ways
 - Take a wide shot of the house, driveway and yard
 - Take a wide shot of the backyard and back of house
- Next, shoot the inside of the house, one room at a time, and paying attention to any special features (bay windows, indoor pool, stairway). Try to duplicate the experience of someone arriving at the location and walking through your house.
- Stand on one side of the room you are photographing and take a picture. Next, take a “reverse” shot by walking over to the opposite side of the room and take a photograph of the area where you were just standing. Show entrances in your photos if possible.
- Save each image as a JPEG, making sure you label each location (eg. “kitchen”, “bathroom”, “back view”, etc.)

You can submit your Photofile by email or on a CD. When emailing, please set your camera at medium resolution; our target print size is 180 dpi. Also include your last name, street address, city, followed by “location photos” in the subject heading. For example: Subject: Jones. 123 Bernard Avenue, Kelowna. Location Photos. The email address is info@okanaganfilm.com.

If you have a CD, you can mail it or drop it off at our office at 1450 KLO Road, Kelowna, BC V1W 3Z4. Remember to save all photos as JPEG. Please remember to provide contact information with your photofile.
